

Poème collectif de la Classe TAGOTM

The golden sun retreats behind the hill Autumn whispers
through the tree A deep peace found in these distant lands.
The air holding traces of a passage Something unfinished
waits to be noticed.

The black shadow follows me in the night. My heart knows
the way but never takes it ; My life was only empty and full of
fear. Joy has slowly turned to grey.

I walk alone with fear in my heart ; I feel the pain but I stay
strong. Life held me up when I almost fell. I believe that life is
not only made up of obstacles But also of light and smiles

In every heart a spark remains. Time : a gentle friend Will
know how To let us live again. I will wait for you Like the sun
waits for the moon.

The day I saw you my heart tangled. I like the way you smile
at me. I looked for home but every door was shut Until I
found the light inside your heart.

So dreams guide me every day, I will find my own way. Hope
illuminates even the darkest days .

Love is thinking about you Your smile lights up my days. Your
name dances in my mind.
